

Some top resources and their resiliencies in AWS:-

Id	Global Resilient	Region Resilient	Availability Zone Resilient
1	AWS Identity and Access Management (IAM)	Amazon S3	Amazon EC2
2	Amazon Route 53	Amazon DynamoDB	Amazon RDS (without Multi-AZ configuration)
3	AWS CloudFront	Amazon VPC	Amazon Elastic Block Store (EBS)
4	AWS Organizations	AWS Lambda	Amazon ElastiCache (without replication)
5	Amazon CloudWatch (global services monitoring)	Amazon SNS	Elastic Load Balancing (ELB) instances
6	AWS Shield (global DDoS protection)	Amazon SQS	Amazon EC2 Auto Scaling (within a single AZ)
7	AWS WAF (Web Application Firewall)	AWS CodeDeploy (regional deployments)	
8	AWS Global Accelerator	AWS Kinesis (streams are regional)	
9	Amazon Simple Email Service (SES) for sending emails	Amazon Glacier	
10		Amazon RDS (Multi-AZ for failover to another region)
